

Reception Phonics Home Learning

We appreciate the difficulties families are facing with learning from home. In Early Years all experiences play a big part in sculpting a child's love for life and learning, whether that be playing out in the garden, helping make the lunch, doing the washing, doing a craft activity, or answering some addition and subtraction sums. Please do not feel pressurised to complete all the learning challenges we set, however remember that routine can support your children (and yourselves) through these uncertain times (and reduce on the snacking).

If at all possible we ask that families to try and continue children's phonics learning at home as this is an important part of fostering love for reading and writing. In your child's home learning book we sent out your child's next phonic sounds that we wanted them to focus on at home. Please continue to focus on these sounds and when your child is secure in recognising the sound, using the sound in their reading and writing that they then move on to the next sound on the sound mat (this was sent out with your home learning pack, however a copy of this is available on Twinkl or the school Weebly).

On the school Weebly is a list of websites that can support on-line activities for reading and writing. In addition, below is a list of games and activities you can play to make phonics as fun and enjoyable as possible.

Roll it, Read it, Phase 2 Tricky Words

Roll the die, read the number, choose a word from that column. If you can read it then cover it with a counter. Who can get the most counters on the board?

the	no	go	into	to	
no	go	into	to	I	
go	into	to	I	the	

We also ask that parents continue to practise cursive handwriting at home.

Remember to continue practising previously learnt sounds which you can find on the sound mat and also tricky words (phase 2 to phase 5 tricky words are available on the school Weebly, children should be able to read and spell each word before learning the next).
