

Hello,

How are you? I hope that you and your family are all ok.

A little bit about me. My name is Mrs Deas I have taught at Codsall Middle School since 2006. I am married to Mr Deas who is also an English teacher at the school. We have two daughters, Georgie and Sammie. Sammie, like you, is also moving schools this year; she's going to Codsall High School. When you come to Codsall Middle School in September, I will be one of your teachers, but also the teacher looking after you and sorting out what happens between now and when you start in September (this is known as 'transition').

During the last couple of months, I understand that school has looked very different for you. Normally at this point in Year 4 you would be excited about your end of year activities, about your transition days and about moving to Codsall Middle in September.

With this in mind, I would like to set you a challenge. Can you write me a letter and get your parents to email it to me at st@codsall-middle.staffs.sch.uk? Your letter should tell me a little about yourself, your name, what you have been doing during lockdown, what you like and dislike, what things you do outside of school, and what you are looking forward to. Can you also draw me a picture and describe what it is and why you have decided to draw it for me?

I am really looking forward to hopefully seeing you before September, and I cannot wait for your letters and pictures.

Take care

Mrs Deas
